Huangpu District, Shanghai, China

Developers,

Here is your chance to have a business relationship with CIRCLE Entertainment.

We can help you by either:

- Publishing and funding your Nintendo 3DS title that's currently in development. Publishing would include as many regions as possible, which could include Japan. If your game needs additional funding to complete the process, this may be the best option for you.

...Or...

- Publishing an existing 3DS title that you may have already released, by publishing it in other regions for you. If you would like to extend your reach, we can help.

CIRCLE has released 40 games in both the Western and Eastern eShop's.

We are providing you with this window of opportunity for all qualifying games.

We can also port and publish games that you may have on other platforms (I.e. iOS).

Therefore, in the near future, we will be focusing and supporting the Nintendo eShop platform even more (included WiiU and 3DS).

Indie developers are welcome!!!

We are open minded to discuss business opportunities with any (indie) developers, and invite any friends to join in if you fit the criteria below:

1. If you or your team already have a great title for other platforms, and you want to have a version on the eShop as well.
2. If you are a Nintendo developer, and you need additional funds to finish your games, we consider your proposal and your development history. If approved, we provide you between \$3,000 - \$10,000 USD, and publish your title world-wide in the Nintendo eShop.
3. If you have an eShop title for EU/US, and you want it released in Japan.
4. If you have an eShop title for JP, and you want it released in the EU and US.

Please contact us:business@cir-ent.com
(Japanese/Chinese/English inquiries)

Best regards!
-CIRCLE Ent.
